*MEP & Oil/Gas Project Manager | Transitioning Focus to Procurement & Planning | Mech. Power Eng., Class of 2000*

## Career Objective

Seeking an office-based role in Procurement, Tendering, or Planning within a structured organization that values digital transformation, where I can apply my MEP background and analytical skills to enhance project efficiency and strategic outcomes.

## Experience

2019-PRESENT

### GENERAL MANAGER, Express Oil For Chemical Industries Company

- Role: Project Executive Lead of Mineral Oil Re-Refining Plant.
- Planning and Design:
  - Conducted a comprehensive feasibility study for the project.
  - Collaborated with engineering teams to ensure optimal process design for the recycling of used lube oil.
  - Directed local and cross-border procurement and supervised contractual execution for fabrication and equipment installation, demonstrating full-cycle awareness from requisition planning, vendor prequalification, and RFQ preparation to bid evaluation, contract negotiation, and post-award follow-up.
- Construction:
  - Oversaw the construction activities, ensuring compliance with safety and environmental standards.
  - Managed the coordination of construction teams, vendors, and contractors to achieve project milestones.
- Operation:
  - Provided consulting services on the operation and maintenance of vacuum systems, including vacuum pumps, boosters, heaters, and boilers.

### Key Achievements:

- Successfully established and operationalized a state-of-the-art mineral oil re-refining Plant with 10k+TPA Capacity, Eco-Friendly
- Orchestrated successful procurement, marketing, and sales strategies, ensuring project viability and success with Growth Rate in Sales 30%+ annually.

**JUNE 2006- 2019**

**PROJECT MANAGER, Eamar Contracting, consultation and Trading Company**

- In-depth knowledge of construction practices within construction and finishing, renovation and real estate sectors, emphasizing quality and safety in adherence to industry standards.
- Applied MEP expertise in technical documentation, quantity surveying, planning, and BOQ preparation in alignment with project schedules.
- Proficient in the construction of fire-fighting networks, ensuring compliance with NFPA standards to guarantee optimal professional, efficient and safety measures.
- Expertise in the construction of central air conditioning systems, following industry benchmarks such as ASHRAE and SMACNA standards.
- Leveraged technical expertise and problem-solving skills in a fast-paced tech office environment, specializing in Quantity Surveying, generating MTOs, and Planning. Demonstrated strong communication and organizational abilities to effectively collaborate with engineers, technicians, and stakeholders
- Familiar with low voltage systems.

**Key Achievements:**

- Led successful renovations of Shooting Club, in Port Said.

**JULY 2005 - MARCH 2006**

**SITE ENGINEER, AL-HERAFI CONTRACTING COMPANY, RIYADH, SAUDI ARABIA**

- Supervision of the implementation of FF networks, HVAC, Infrastructure sewage and plumbing networks.

**Key Achievements:**

- Waqf El-Bashir residential and commercial complex in the central area of the Prophet's Mosque in Medina, covering an area of 3400 square meters and consisting of 19 floors. These include three underground floors for parking and building services, a ground floor, a mezzanine floor, and 14 typical floors.

**2004-2005**

**SITE ENGINEER, TCI SANMAR GROUP**

Supervision of the implementation of chlorine pressure and liquefaction unit networks, installation and maintenance of compressors, chlorine liquefied tanks, and heat exchangers.

**Key Achievements:**

- Fabrication and erection of Liquefying Chlorine unit, installation of compressors, HE
- Fabrication and erection of HCL Tower

2000-2004

### SITE ENGINEER, BESIMILI ELECTROMECHANICAL CONTRACTING COMPANY

- Supervision of the implementation of Infrastructure network, chilled water networks, UTILITIES networks, installation and maintenance of pumps, boilers, and heat exchangers.

## Education

- Bachelor's degree in **Mechanical Engineering** and Technology, Mechanical Power Department, Suez Canal University, Class of 2000.

## Certificates and Training:

- January 2018: **Entrepreneurship and Opportunity Development** Course from the University of Pennsylvania, USA.
- January 2014: **IELTS** Certificate from The British Council.
- May 2004: **Procurement Management** Course from Al-Ahram Foundation.
- September 2023: **MBA** online preparation course (Self learning)
- April 2020: **PMP** online preparation course (Self learning)

## Languages:

- |                    |                     |
